

30th June, 2022

Declaration of Compliance

Herewith we confirm that the products of the NIEDAX GROUP are in accordance with the directive

2011/65/EC RoHS - Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (recast) including the additions due to 2015/863/EU.

Directive 2012/19/EC (recast of waste electrical and electronic equipment - WEEE) is not relevant to our products, since they are an inherent part of the building installation.

All measures necessary in order to ensure compliance with the REACH Regulation (1907/2006/EC) were taken by the NIEDAX GROUP; our articles and their packaging materials contain no substances included on the candidate list (10th June, 2022) according to article 59 (1, 10) of 1907/2006/EC in a concentration above 0.1 % weight by weight. Some connecting and mounting elements consist of copper alloys (i.e. CuZn39Pb3) because they require a lead content above 1000 ppm due to physical properties. When used as intended, these articles/components do not pose a risk to humans or the environment. These articles are being notified to ECHA by means of the SCIP-Database.

This supplier's declaration reflects our present standard of knowledge and may be amended according to available technical expertise.

This declaration applies only to standard catalogue products; for all especially customized products, a specific consultation is obligatory.

Sincerely yours
Niedax GmbH & Co. KG

Alexander Horn
Technical Manager
